## HON. JOHN E. GARNER.

He is Emphatically a Self-Made Man,  
Who Was Not Born or Reared  
in the Lap of Luxury.

In about four weeks from this time the Democratic convention, which meets at West Liberty, Ky., on the 23rd of June, will select the standard bearer of the Democratic party in this district at the approaching congressional election. The Sun takes pleasure in commending to the favorable consideration of the Democracy of this district the name of Hon. John E. Garner, of Winchester, Ky., for that important position. He is emphatically a self-made man, who was not born or reared in the lap of luxury, and who has never had the means or the opportunity of devoting much of his time to the cultivation of his well-known literary tastes; but who, under the most adverse circumstances, has won for himself an enviable reputation for sterling integrity and for commanding ability in the estimation of all who know him.

He has never heretofore sought or had political preferment of any kind; but for three terms he has been chosen by the common council of Winchester as mayor of said town; and in that important position he brought to the discharge of his duties a degree of industry, integrity, ability and fidelity which fully attests his fitness for the performance of the duties of a public trust of any kind. He has always been an earnest Democrat; and for many years past he has made an active canvass of his own country in races where he was not himself a candidate, but where the success of the party was involved.

Having himself sprung from the common people, every feeling of his heart and every fibre of his nature have always been in touch with that class of people, as against the increasing encroachments of money and monopoly whose constant aims have been directed in the interest of the few and against the interest of the many, which now constitutes one of the gravest dangers by which the people of this country are threatened. He was therefore a pioneer in behalf of free and unlimited coinage of silver in which the common people are so deeply interested; and as a delegate to the Chicago convention, he quickly perceived the commanding qualities of head and heart that were subsequently recognized by all persons in Hon. W. J. Bryan, and he was one of the first to rush to the standard of that great tribune of the people as soon as the name of the favorite son of Kentucky was withdrawn.

His canvass in behalf of the principles enunciated by the Chicago platform attracted such widespread attention in his own county that he was eagerly sought for by the Democracy of other counties, many of which he visited during that eventful campaign; and it is no exaggeration to say that he won for himself great reputation as a public speaker wherever he went. On one occasion, in company with Senator Teller of Colorado, who is universally recognized as one of the ablest advocates of free silver in the entire country, Mr. Garner addressed an immense audience at Ashland, Ky., and that distinguished senator, during his stay in Kentucky, told more than one person that the speech delivered by Mr. Garner at Ashland was one of the very strongest and best that he had heard in any state from any one during that entire campaign. We allude to this circumstance merely to show that the estimate which is placed upon Mr. Garner by his home people is not the result of local pride or of personal partiality, but is the verdict rendered by strangers and impartial persons also.

It is sometimes said that Mr. Garner would not make a strong candidate because he happens to live in what is known as a bluegrass county, whilst most of the counties composing the district are what is known as mountain counties; but we have no fears on this account. We have had considerable experience and contact with mountain people and we know them to be a brave, generous, fair-minded people, who are always quick to perceive and ready to recognize merit wherever they find it, either in one of their own neighbors or in one from another and different county. The only difficulty he

will have to encounter among mountain people is, that he may not yet be as well known to them as he is by his home people; but he has just returned from an extended tour through the mountain counties, and we now make the prediction that he will not only be nominated by the approaching convention, but that he will be triumphantly elected at the following November election.

In thus commending the man of our choice, The Sun does not desire to be understood as intending to disparage the aspirations of any of the other candidates; on the contrary, we recognize that civil treatment and fair dealing on the part of every candidate and his friends toward other candidates is absolutely necessary to insure success to the nominee of the convention, whoever he may be; and hence we are glad to say that Mr. Garner and his friends have conducted this canvass on a high plane, without abusing people of other political parties and without indulging in any criticism of other candidates in his own party.—Winchester Sun, May 26.

## THE RED RIVER VALLEY

Railroad Company Meets at Mt. Sterling and Elects Officers.—Rothwell Will be Headquarters of the Co.

The directors of the Red River Valley Railroad Company met in this city Thursday and elected the following officers: President, J. W. McCausley, of Union City, Mich.; Vice President, A. L. French, of Fort Wayne, Ind.; Treasurer, W. O. Hughart, Jr., of Grand Rapids, Mich.; General Manager, James Muir, of Grand Rapids, Mich.; General Counsel, Tyler & Apperson, of Mt. Sterling, Ky. The headquarters of the company will be at Rothwell.

THE HAZEL GREEN HERALD, noting the filing of the articles of incorporation for this road, rather intimates that it has no faith in the building of the road to Salyersville, as is contemplated; but from the information we have we believe there is no doubt of its extension, and that pretty soon. About 11 miles of the road has already been built and in operation. The men at the head of the enterprise are business men, and while they are not making any noise about what they propose to do, we are satisfied the early completion of the road to Salyersville is assured.—W. H. W., in Mt. Sterling special to Lexington Herald, May 29.

## A Mountain Marksman.

The other day a lank mountaineer passed the physical examination for army service, but was rejected because he could not read and write. On being told that his limited education barred him, he exclaimed: "I didn't know you were hiring men to go to Cuba to teach school, but thought you wanted them to kill Spaniards." He was immediately sworn in.—Lexington Argonaut.

## THE WAR

### Schley Has Cevera Covered.

Washington, May 30.—The Navy Department has just received at 12:30 this (Monday) morning a dispatch from Commodore Schley stating that the Spanish fleet is in the bay of Santiago De Cuba and that he has seen and recognized the vessels.

It is not believed that Cevera will attempt to escape. The suggestion is made, however, that the Spaniards may blow up their ships rather than have them fall into the hands of Schley, as they certainly will if they remain in the harbor.

The definiteness of Schley's dispatch indicates that he has made a landing near Santiago and made a personal investigation.

Probably Schley or one of his trusted officers successfully performed this hazardous undertaking in order to obtain the valuable information contained in his dispatch.

### Cuba To Be Invaded At Once.

New York, May 29.—A special to the Tribune from Washington says orders have at last gone forward to Major General Schafter at Tampa to embark the greater portion of his corps, including all regulars and a few of the most efficient volunteer regiments on board the transports gathered at that point, and the aggressive military movement which has been so frequently predicted and as often delayed for one cause or another will be an accomplished fact before the end of the week.

The strongest units of Admiral Sampson's reorganized squadron now at Key West will convoy the expedition and cover its landing at a point now definitely designated.

### Sampson's Squadron at Key West.

Key West, May 29.—The ships of Admiral Sampson's fleet stand close together in groups. Sampson is at Key West, in a position to move quickly in any direction where Spanish ships may appear.

If the Spaniards should escape Schley and make for an eastern seaport of the United States Sampson is in a position to cut them off in the Windward Passage.

### Another Chance to Go to Cuba.

Col. D. G. Colson, who has been commissioned by Gov. Bradley to raise a regiment of the new call for troops, says it will be mobilized here, as Lexington is nearer to counties from which companies will come, and as everything is ready here and it is the most convenient place. He says he has allotted companies to the following counties: Bell and Harlan, Pike, Floyd and Knott, Knox and Clay, three companies between them, and Leslie, Lee, Estill, Clinton, Breathitt, Carter and Owsley, one company each. This leaves two companies yet to assign. Col. Colson's headquarters will be at the Phoenix Hotel, Lexington, where all letters pertaining to the raising of the regiment should be sent.—Lexington Herald.

### Mrs. Cleveland in Picture and Story.

Mrs. Grover Cleveland is biographically treated by the June Ladies' Home Journal in the most unique manner. Her closest friends have united in contributing a series of characteristic anecdotes, recording some of her sayings and doings, and these perfectly reflect the former mistress of the white house.—They are vastly more interesting and accurate than the usual biographical sketch, inasmuch as they do not picture Mrs. Cleveland as another person sees her, but mirror her precisely as she is—by her own words and deeds. A number of photographs are published in connection with the anecdotes. They are the first made of Mrs. Cleveland since she left the white house.

## THE KENTUCKY CHAUTAUQU.

Woodland Park, Lexington, June 28th to July 9th, inclusive.

The Eleventh Annual Session of the Kentucky Chautauqua will be held in Woodland Park, Lexington, Ky., June 28th to July 9th inclusive. The whole is under the charge of the well known Chautauqua manager, Dr. W. L. Davidson, who has been so successful in the conduct of this assembly for the last six years. No expense has this year been spared in the preparation of the program, which is as strong and brilliant as will be offered by any Chautauqua in America. You can here, at insignificant cost, secure outing and rest, enjoyment and instruction. There will be class work along the lines of normal, elocution, physical training, temperance, children's missionary, woman's clubs, and public school teachers' work.

The music, which is of the highest order, will include Saxton's famous band in two concerts daily; the Schubert glee club and male quartet; the Indiana State University glee club, 17 jolly college boys; Madam Cecelia Epinghousen Bailey, the great dramatic soprano, and Miss Sybil Sammis, who has toured the country as the soloist of the celebrated Chicago marine band; Prof. A. E. Aldrich and his famous choir.

On the lecture platform will appear such men as Rev. Sam P. Jones, Bishop John H. Vincent, President E. Benj. Andrews, Alex. Black in his famous picture plays; Phillip F. Matzinger in crayon lectures; Jahu DeWitt Miller, Lee Fairchild, the "Artemus Ward" of the present time; biographical studies. Prof. H. V. Richards in scientific lectures illustrated by experiments; Chas. Montaville Flowers in superb impersonations; dialect readings by Will B. Gane and Miss Georgia Ray McMillan; Dr. M. M. Parkhurst, Mrs. W. F. Crafts, Mrs. Clara Hoffman, Mrs. A. R. Bourne, Col. George W. Bain, Miss Elizabeth Shelby Kinkaid will also be heard with great delight.

On July 2nd there will be a monster children's parade and flag drill with the presentation of "Old Glory" to the Chautauqua, when Governor Bradley is expected to give the address.

The Fourth of July will be a great day with the unique Sam P. Jones as one of the orators. Some great statesman will also be procured whose name cannot now be announced in view of the conditions existing in our country. Full announcement will be made hereafter, but the day will be made memorable and worthy of patronage.

Bishop John H. Vincent, the founder of the Chautauqua movement, will make the address on recognition day, July 7th, when the class of the year graduates.

July 8th is college day with a contest between representatives of leading colleges with the first prize \$75 and the second \$25.

Special rates will be furnished on the railroads. Admirable opportunities for tenting and camping in beautiful Woodland Park with ample boarding accommodations in the hotels and homes in the city of Lexington. The detailed illustrated program may be obtained by addressing Charles Scott, business manager, Lexington, Ky.

In our advertising columns will be found an announcement of ex-Senator John J. Ingalls' forthcoming book, entitled "America's War for Humanity." Canvassing agents will find in it a book of remarkable interest, and certainly of extraordinary salability. The history of the war is told in picture and story, and in a way that always characterizes the brilliant pen of Senator Ingalls. In narrating the incidents of this war he finds grand scope for his superb descriptive and analytical powers. The theme is worthy of the author, and the author is worthy of the theme. It is published by N. D. Thompson Publishing Co., of St. Louis, Mo. It will be a monumental work that will not only be everywhere read, but it will be a monument to his genius that will outlive in history his brilliant senatorial career. The subscription book trade and the canvassing agent are fortunate in the fact that an author of such rare ability has been enlisted in its interest.

Old papers 20 cents per hundred.

## ANNOUNCEMENTS.

We are authorized to announce JOHN E. GARNER, of Winchester, Clark county, as a candidate for Congress in this (the Tenth) district, subject to the action of the Democratic party.

We are authorized to announce Hon. THOS. Y. FITZPATRICK, of Prestonsburg, Floyd county, as a candidate for re-election to Congress from the Tenth district, subject to the action of the Democratic party.

We are authorized to announce O. H. POLLARD, of Jackson, Breathitt county, as a candidate for Congress from this, Tenth district, subject to the action of the Democratic party.

The probability that we can induce the incorporators of the Red River Valley Railroad Company to build their road by way of Hazel Green prompts us to call for a public meeting of the citizens of this immediate vicinity to take some action looking to that end. As people generally are prone to go where they are invited and are most likely to be warmly welcomed, all the enterprising, wide awake citizens in and about Hazel Green should assemble here next Saturday, say at 2 o'clock p. m. at the store of Judge G. B. Swango, and issue an invitation to the projectors of the Red River Valley railroad to come our way. The construction of this road through or by our town would mean much to our people, especially the property owners, and we should encourage them in the enterprise in every way possible. That they intend to build this road is evidenced by the fact that ten miles of it, from Rothwell to Michigan, a shanty settlement on Beaver Hill, is already constructed and was sometime since operated. The extension of the line from that point to Hazel Green would, in common parlance, be as easy as rolling off a log, and it will be equally as easy for our people to get the road by way of our town if they will but work with a will. The objective point is Salyersville, and surely if our people will turn out Saturday we can altogether point out to the projectors much along the line from the present terminus by way of Hazel Green to Salyersville that would render this route the most profitable one to them. Let everybody attend the meeting and lend his voice to the invitation for them to look over our line, and promise them all reasonable assistance. Now, in our opinion, is our opportunity, and let us make the best of it while we may.

ABOUT the most remarkable coincidence of which we were ever cognizant is illustrated by the fact that two great papers, viz: the Mt. Sterling Sentinel-Democrat and the HAZEL GREEN HERALD should simultaneously speak the same sentiments, and each use the same identical words in doing so, even to the minutest abbreviations. And that, too, when the editors are 40 miles apart and without either telephonic or telegraphic connection. In our issue of May 12 we had the following local item:

"Two months ago we had serious doubts whether there would be any crops made in this section this year. All the young men and many of the old ones were 'off for Cuba in a day or two.' Today a yoke of steers couldn't pull one of 'em to within ten feet of a recruiting officer."

Having seen the same item in a dozen or more of our exchanges, credited to the Sentinel-Democrat, we were led to conclude it a most remarkable coincidence, and at the same time wonder what mysterious power prompted two persons so far apart to express the same sentiment and clothe it so exactly alike, and we are yet wondering. While it is prima facie evidence of "two souls with but a single thought," it does not prove that the "two hearts beat as one," and we are puzzled to account for the phenomenon. Many similar cases have occurred before, but never anything so marked, and we should like for some philosopher to explain it—if they can.

All parties indebted to me, or to the firm of Rose & Davis, are requested to call and settle immediately. Respectfully,  
JOHN H. ROSE.

## Some Forty-four Years Ago.

Inadvertently we last week failed to note the presence of several strangers within our gates, viz: Mr. & Mrs. W. P. Ardery and little son, and Mr. & Mrs. Ollie Hedges, all of Bourbon county. They live near Hutchinson station on the Kentucky Central, and as the editor there took his first lessons in penmanship with a quill pen, and also indulged in his first chew of "Missouri Cavendish" tobacco, two events that are indelibly impressed upon his mind, he also fondly remembers a few familiar names among those of the young ideas who were there learning to shoot—paper wads at the teacher, and other things, and for punishment had to sit with the girls and make an extra line of "pot hooks." Oh, it was awful. But, if memory serves us right the teacher sometimes resorted to the rod and on occasion its gentle taps were also impressed upon the m—meagre anatomy of some indiscreet young idea. Did he whip us? Did the dogs lick Lazarus? Among the boys were the Bains, the Smedleys, the Berrys, the Hutchins and scores of others, whose names we have forgotten, and it was of these, or some at least, that Mr. Ardery and Mr. Hedges talked of very interestingly for an hour or so Monday in our office. Hence these reminiscences, and along with them the regret that we can not go back there and begin again the voyage of life. Were it so we should steer an entirely different course, use a cleaner chart and a better compass. But alas. Too late! Too late! Long since the decoy of a false beacon beckoned us onto the breakers, and we have since floundered in a sea of fury. Time and again we have essayed to ease away into calm waters and sail smooth and straight. But a wave of adversity or the roughs of remorse are ever before us. But enough! Young man, you are just now starting on the voyage of life. See that you shun the breakers. All along your course keep God as the guiding star, and all will be well with you.

## Will Make a Mute Address.

Hearing that Charley Buchanan, our clever deaf and dumb cobbler, had been invited to meet with and address the alumni of the Danville Deaf and Dumb institute, "our man about town" asked Charley to write down the particulars of his attendance at that eleemosynary educational institution, and elicited the following:

"I entered the Kentucky school for the deaf and dumb at Danville, Ky., at the age of 14, and attended six years, graduating in 1890. D. C. Dudley, of Colorado, was the superintendent of the school when I entered, but on account of bad health resigned and was succeeded by W. K. Argo of Danville. The only trade then taught was carpentry, but through the influence of Mr. Argo the shoemaking trade was added. I set to work to learn the trade, was very diligent, and the first pair of shoes I turned out proved quite successful, and as a reward for my success they were presented to me for my own use. After working at the trade for two years, a gold medal was offered for the best and neatest pair of shoes. There were 12 boys in the contest, and after securing the best two shoemakers in Danville to act as judges I was awarded first prize and James Twitty, of Meade county, received second. There will be a reunion of all old graduates of the school in honor of her 75th anniversary of existence June 14th to 16th."

Charley will leave here on Sunday, the 12th inst., and is booked for an address on the subject of "Shoemaking" on the 15th, which will of course be delivered in the sign language, and that he will acquit himself with credit is concluded.

The longer you neglect a cold the harder it is to get rid of. The very first symptom should be met with a dose of Dr. Bell's Pine Tar Honey. The famous remedy will cure it whether of short or long standing.

George Sewell and John Pence, of Holly, were here Saturday and Sunday visiting the family of Frost Wood, and accompanied by Monroe they paid THE HERALD a pleasant call Saturday, and Mr. Sewell subscribed to the "dear old HERALD."

### Our Cuban Army.

The strains of martial music were heard upon our streets early Monday morning, and in a little while a company of recruits gladdened our eyes by halting in front of THE HERALD office. Acting Captain Mort Swango lined up his men, three shouts for "Cuba libre" were given and the gang raided our water bucket. Inquiring who the Lieutenant might be, "the governor," who was himself a high private in the rear rank, replied, "Tom Turner," and pointed out Boone Lacy. The drum corps was short a hand, but Kelley Nickell fingered the fife and Arbury Brooks beat the bass. All in all it was just such a crowd as could mix up with the Cuban insurgents and instantly lose their identity. But though "Enough of merit has each honored name. To shine untarnished on the rolls of fame," their patriotism proved to be only a pretense, as

"They just marched up the hill And then marched down again."

### The Murphy-Cardwell Nuptials.

Frank Murphy and Miss Ella S. Cardwell will be united in the holy bonds of matrimony today. The ceremony will take place at the residence of the bride's father, Judge Charley Cardwell of Stillwater, but we are not informed as to the hour nor the name of the officiating clergyman. On Friday (tomorrow) the groom's parents, Mr. & Mrs. Harry Murphy of the Murphy fork of Grassy will have a reception in honor of the event, and regale the bridal party with a royal dinner.

### Miraculous Benefit RECEIVED FROM

Dr. Miles' New Heart Cure.

ELLI P. BABCOCK, of Avoca, N. Y., a veteran of the 3rd N. Y. Artillery and for thirty years of the Babcock & Munsel Carriage Co., of Auburn, says: "I write to express my gratitude for the miraculous benefit received from Dr. Miles' Heart Cure. I suffered for years, as result of army life, from sciatica which affected my heart in the worst form, my limbs swelled from the ankles up. I bloated until I was unable to button my clothing; had sharp pains about the heart, smothering spells and shortness of breath. For three months I was unable to lie down, and all the sleep I got was in an arm chair. I was treated by the best doctors but gradually grew worse. About a year ago I commenced taking Dr. Miles' New Heart Cure and it saved my life as if by a miracle." ## MOSQUITOES KILL BEAR.

Upon the Yukon These Insects Force  
Deer to Flee to the Snow  
Line for Safety.

Not only do the Yukon mosquitoes attack men and overwhelm them, but they drive the moose, deer and caribou up the mountains to the snow line, where these animals would prefer not to be in berry time. They kill dogs, and even the big brown bear that is often misnamed a grizzly has succumbed to them, says the Denver Times. Bears come down to the river from the hillside in the early fall to get some of the salmon that are often thrown upon the banks when the "run" is heavy.

If Bruin runs foul of a swarm of mosquitoes and has not his wits about him his day has come. The insects will alight all over him. His fur protects his body, but his eyes, ears and nose will soon be swollen up and bleeding, and unless he gets into a river or a strong wind he will be driven mad and blind, to wander about hopelessly until he starves to death.

Although the Alaska summer is short, two broods of mosquitoes hatch out each year and are ready for business from one to ten seconds after they leave the water. It rains a good deal along the Yukon, and rain is welcomed, for it drives the mosquitoes to cover. They hide under leaves and branches until the shower is over; then they come out boiling with rage at the time they have been forced to spend in idleness, and the miner has a harder time than ever after his respite.

Mosquitoes and snowflakes are not contemporaries in the states, but in Alaska it is different. Snow does not bother them so much as rain, and an early snow may fall while they are still on the wing. Fog does not choke them, either. They appear to like it. They float about in it as in ambush, and take the unwary prospector by surprise.

## QUEEN TAITOU A STICKLER.

Menelek's Wife Occupies a Dignified  
Position on Abyssinia's  
Throne.

There is no European queen consort filling a more dignified station than Empress Taitou of Abyssinia. She has a large household of her own, her lord stewards, chamberlains, butlers, cooks and guards. She directs all the grand feasts, has immense appanages all over the empire, and resources in kind. She leads a sedentary life because there are no interesting promenades, but when she shows herself in public she is surrounded with ladies, mounted on richly-harnessed mules, with runners, umbrella bearers and other attendants. The umbrellas are of many colors, but Taitou's is red.

The empress is a stickler for etiquette, to which Menelek attaches no importance. Nobody who has not been formally presented to her must gaze on her, even within the precincts of the palace. She has a large kitchen garden, which is one of her many delights, but the moment the red umbrella appears the gardeners must retire. All the servants stand aloof with downcast eyes as she walks by. Not taking much exercise, Taitou is lost in fat. Nevertheless, her presence is dignified. She is wonderfully well informed, converses cleverly, and can be charming. Her letters are well written, and in a bright, natural style. They might put to shame those of many a well-educated European lady. The dress of the empress is only distinguished from that of her ladies by its impeccable cleanliness and neatness.

## AN ODD PROJECTILE.

How a Venturesome Missouri Lad  
Shot and Killed a Deer  
with a Marble.

There is a boy in Taney county who has a record which perhaps few, if any, old hunters can match. He killed a deer with a marble. True, the marble was shot from a gun, but still the occurrence may be ranked among the most unusual of hunting events, says the Kansas City Journal.

The lad was out in the woods shooting and had exhausted his supply of shot. He had put into his muzzle-loader, a single-barrel gun of the old pattern, a charge of powder, when he discovered that his shot pouch was empty. The boy had in his pocket a marble which he used as a "taw" in playing the common game. The marble exactly fitted the muzzle of his gun, and, hardly thinking what might result from the experiment, the young hunter dropped the "taw" down on the wadding covering the powder.

Strange things happened down in the Bull Creek hills, and on his way home the boy came upon a deer, which at close range stopped and challenged his aim. The adventurous scion of good hunting stock leveled his gun, pulled the trigger and brought down the game, the marble boring a hole into the vitals of the deer.

## Digging for Fish.

The natives of Kotliar are in the habit of digging every year in the summer dry banks of the Vergel river for fish, which they dig out by hundreds, just as they would potatoes. The mud lumps are broken open and the fish, perhaps eight or ten inches long, will always be found alive and often frisky, as if just removed from its supposedly native element—the water.

## A Know-Nothing Jury.

The difficulty of impaneling a jury in the early courts of Wisconsin may be seen from an incident related in "The Bench and Bar of Wisconsin." Judge Irvin was on the bench, and a murder trial was pending. G. T. Long, familiarly known as "Lucy" Long, was under sheriff. There was difficulty in getting a jury which knew nothing about the facts of the case. The regular panel had been exhausted, and a special venire had been issued, and was finally returned. "Well, Mr. Long," asked the judge, "have you at last secured a sufficient number of jurymen who know nothing about this case?" "Yes, sir," replied the polite officer. "Six of them know nothing about this case, and the other six know nothing at all."

## Nelson's Hawaiian Hair Elixir.

This is to certify that we handled Nelson's Hawaiian Hair Elixir for ten months, and can truthfully say that the sale of it is phenomenal. We have sold ten times as much of it as of all other hair preparations combined, our sales amounting to over 600 bottles, seven other drug stores in the city handling it at the same time. We consider it by far the best hair preparation on the market.

## Poker on the Pacific Coast.

"The terror of a one-card draw is unknown to San Francisco devotees of the game immortalized by Gen. Schenck," said William R. Brewster, of that city, recently. "The reason is that out on the slope we do not play sequences, or 'straights,' at all and flushes only before the draw. A flush therefore is of no account except when held 'pat.' This, to my mind, is a better system than the eastern method, for it gives the man who holds the best pair the natural advantage that belongs to him. It is needless to say that those abominations known as 'big' and 'little dogs,' that go with the game in Kentucky, are absolutely unknown in California."

## A Mixed Race.

Not all Americans are Anglo-Saxon. Even in the south, where the proportion of people drawn from that source is greatest, there are strong infusions of French, Irish and Scotch-Irish blood. In the west are extensive German, Irish and Scandinavian populations, in the east a vast Irish population, a large Canadian French element and an immense number of Germans. Even what is called the Anglo-Saxon stock is mixed with Dutch, Huguenot and Scottish contributions. When this country has fighting to do she does not look to one race among her people, but to all, and her foreign relations cannot be planted on the affinities of Anglo-Americans or any other ethnic element.

## Cincinnati Stock Sales.

The Cincinnati Live Stock Record, of Friday, gives the following as the best prices for that day:

Best price for cattle, \$4.75.  
Top price for calves, \$7.25.  
Top price of hogs, \$4.45.  
Best sheep brought \$1.00.  
Best lambs brought \$6.25.

The above were actual sales, but it should be borne in mind that they represent the best of their class on the market that day. THE HERALD will each week give the best sales of the Friday before, which is alone worth the price of the paper. NOW is the time to subscribe.

**Some Plain Facts.**

Grave errors, injustice, wrongs of greater or less degree, arise from lack of knowledge of the truth, and more frequently from deception. The most infamous case on record of deception and injustice is the attempt to demonetize silver as a money of final redemption in the United States.

There is no learned judge, skilled lawyer, or court of justice that is capable of reconciling the effort with the constitutional laws that govern the issue of money in this country.

The people have been deceived, officials in power, chosen to administer justice under the laws, have ignored their sworn duty, and given aid to the scheme that has paralyzed industry, reduced property values one-half, and beggared millions.

There is no authority of law, either specific or by inference, by which gold alone is made the only money with which to discharge debts, either public or private. The effort to make it so is unconstitutional and a national calamity.

Plain and ample information, facts, and truth, concerning this almost successful scheme to corner the wealth of the people, is now being printed in the Cincinnati Enquirer, a newspaper which the combined power of money has failed to muzzle or buy. The Weekly Enquirer is only 75c. a year. The address is Enquirer Company, Cincinnati, O.
